

Threat Letter

Dear Sir/Madam,

With all due respect, this is Sardar Adab resident of Nangarhar Province Afghanistan. I graduated from the Bachelor Science of Agriculture faculty and worked with national (HVCDSP funded by ADB) and international (IRC, International Rescue Committee) NGOs.

The current crisis in Afghanistan has terrified us. Our children and families have suffered serious psychological damage.

So, looking to the above evidence and threats to my life, the current crisis and worsen security situation in Afghanistan has terrified me. My life is severely threatened not only in terms of security but also in terms of economy, education, rights, and freedoms and all the matters of life to which human beings have a right. My family have suffered serious psychological damage. Although I am so much proud for working with a neutral charity and humanitarian organization, but no one is safe in war, misery, and bloodshed. It is unlikely that Afghanistan in the near or distant future may witness much more dangerous civil wars and terrorist groups than in the past, which we hope will not happen, in such case there is no guarantee available that me and my family members will be safe or not.

Finally, I kindly request your migration department to assist me and my family members settlement in your esteem country, as this is fact that your government and its people are striving for the safety and security of people worldwide, where they have settled many people in their county whom life were seriously at risk, and for a person like me who were actively involved in serving to empower the community and marginalized people in my war-torn country, but currently the situation of my country is not suitable for me to live here anymore and at least to have a peaceful life for my family since all borders are blocked I am indebted and thankful to the humanitarian and valuable assistance of the honorable, gracious, kindly and proud people of your respected country who always supported the people around the globe who fought for the rights of human beings.

So, need your kind consideration and attention in this regard.

Best Regards.....

Sardar Adab
